3. In a transportation apparatus, a passenger support in which a passenger is supported in full length straight-line position, and a frame on which said support is pivoted to swing about a horizontal axis, said support comprising a back, a cushion slidable longitudinally of said back, a foot rest on said cushion, and means to shift said cushion and foot rest longitudinally on said back.

ESTHER C. GODDARD, 10
Executrix of the Last Will and Testament of Robert H. Goddard, Deceased.
